

Transport Survey Results From CWNP Public Consultation March 10th –April 4th 2014

The survey identified 2 very clear key themes with 2 secondary threads.

Key Theme- Decrease Traffic Congestion

- Improve efficiency of existing roads by intelligent active traffic control management.
- Reduce impact of short term large increase in traffic flow from regular occurring events such as Legoland, School Runs and Horse Racing.

Key Theme- Improve parking

- Increase cheap/free parking for town shoppers (Advantage Card Holders)
- Improve parking arrangements for residents
- Ensure adequate parking for all new building developments of housing, offices and hotels.
- Improve parking at locations to give better access to open spaces.

Secondary Themes.

- Improve public transport
- Better interconnection and routing of cycle paths for both recreational and to be used as dedicated cycle routes.

Other key themes outside the scope of our NP.

- Park and Ride
- Alternative North/South western relief road.
- Link railway.
- Motorway signs with the Highway agency.
